Garrett Modular

Collection

Tough

We build our storage furniture with 1" thick solid oak or maple wood. If you're tired of the cheap storage furniture that just doesn't cut it, try Sage. It's built to take it.

Modular

The straight sided design allows any pieces to be joined together with our hardware system, so you can create your perfect combination.

Movable

The relatively small size of each individual piece makes setup a breeze, and unlike a built-in wall unit, you can take it with you to a new home.

Fits cubes

We've designed our furniture line to fit standard 11" and 13" fabric storage cubes. These are readily available in an array of colors and styles to suit your taste.

Limited customization

Standard styles make our storage furniture an affordable alternative to custom wall units or cabinets.

what it's all about

The Garrett Modular Collection

Ten units make up our Garrett Modular Collection and are the building blocks to create your very own storage solution. A practical alternative to built in cabinets, this collection blurs the lines of traditional furniture categories and makes itself at home in any room of your house. On top of that, it's built to last, ready to take on the wear and tear of daily life.

Our unique hardware system allows you to easily join units together. Brackets fasten on the top, bottom, or back, keeping the side panels free of holes. This allows you to arrange and rearrange units however you like.

Used individually or paired together, the genius of the Garrett Modular Collection is its versatility. Connect a few units to build your dream mudroom locker, then switch things up and use one of them for some extra pantry storage. Then, when moving to a new house, will you use them for more closet space or for some hefty garage shelves? We'll let that up to you.

Sage. Organize wisely.

library

Build the home library you've been dreaming of, in your own living room. Your favorite books can be beautifully displayed and ready to be picked up. Create a cozy reading nook surrounded by bookshelves, where you can get lost in the pages of a good book.

playroom

Tired of tripping over stray toys and searching endlessly for that missing puzzle piece? Arrange units to fit your space, and store all your child's favorite playthings, from building blocks and stuffed animals to books and art supplies.

mudroom

Say goodbye to the chaos of a disorganized mudroom and hello to a streamlined, tidy, and welcoming space. Come home to a clutter-free entryway, where shoes are no longer scattered, coats hang neatly, and hats, gloves, and other essentials are neatly tucked away.

storage

Organize everything from pantry staples and kitchen gadgets, to linens, cleaning supplies, or even tools in the garage. Imagine your pantry perfectly organized, your craft and sewing room clutter-free, or your laundry room finally tidy.

5 piece solid wood door with soft close hinges

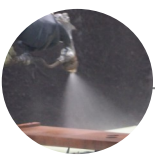

Fits 11" or 13" fabric cubes or baskets available at your favorite home center or craft store.

Plain straight sides allow any pieces to be joined together with our connector hardware system.

1" thick shelves, solid hardwood construction

Finished with 3 coats of conversion varnish

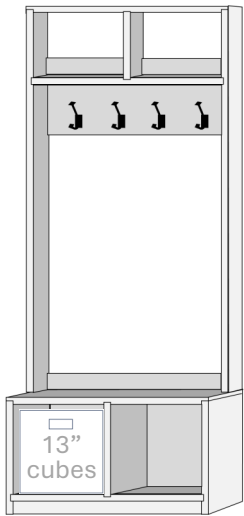

1/2" plywood backing

Connector hardware

A clip holds adjoining units tightly together at the bottom, while a connector bracket joins the top. "L" brackets fasten the units to the wall, and you're done!

31"W x 33"H x 14"D

These units are designed to fit 11" fabric storage cubes.

These units are designed to fit 13" fabric storage cubes.

about us

Our small family business, Horning's Woodcraft, opened its doors in 2001. Since then, we've been handcrafting and selling custom fine furniture, as well as a full lineup of dining furniture. In 2025 we introduced Sage: furniture built specifically for organizing and storing your stuff. This furniture is built right here in our shop and branded with the Sage name to differentiate it from our custom furniture.

Visit our showroom to see our display models and color options. Or give us a call at 717-949-3524.
